

SINCE 1980

CUSTOM FABRICATION FOR THE MODERN DAY WITH TRADITIONAL CRAFTSMANSHIP

DS Fabrication is committed to providing the highest standard of quality in the metal fabrication industry satisfying all customer specifications while providing on time delivery.

From full scale production runs involving thousands of parts to a custom design part or prototype. The DS team is ready to bring your project regardless how large or small to the finish line on time.

With a proven track record of excellence going back to 1980 DS is dedicated to starting strong and finishing on time delivering customer satisfaction second to none.

Whether it's designing, prototyping, or last-minute rush projects the DS team will work diligently to hold the highest quality standards that DS Fabrication is known and respected for.

**Reduce
Lead Times & Costs**

**Accomplish
Customer Project Goals**

**Increase
Margins & Customer Satisfaction**

CUSTOM FABRICATION SERVICES

3D DESIGN

**YOU THINK IT,
WE CREATE IT!**

The DS team of designers and engineers will take your specifications to create a digital design used for fabricating with:

- Carbon Steel
- Aluminum
- Stainless Steel
- Plastics (3D Printing)

LASER CUTTING

Dual Flatbed Lasers, along with a highly trained team, make up our onsite Laser department. By having these advanced machines we are able to reduce lead times and improve the accuracy of your project!

METAL FORMING

Manual or computer controlled, our team of craftsman will make sure your project exceeds your expectations!

- Shearing
- Blanking
- Sawing
- Welding
- Bending
- Drilling
- Cutting
- Roll Forming
- Punching
- PEM Fasteners

CNC SERVICES

Speed and precision are of the utmost importance in today's fast paced world. We continue to invest in the latest technology to provide you with the best product in a timely manner.

With the use of CNC Machining and Forming, we will produce your project just how you envisioned it!

METAL ASSEMBLY

Our experienced team of welders and fabricators operating specialized, state of the art equipment can meet most needs within a flexible time schedule. We can fabricate all manner of sheet goods, structural steel, and tubing.

Our team along with robots can MIG & TIG weld:

- Carbon Steel
- Stainless Steel
- Aluminum

LOGISTICS

Your project deserves the utmost care and professionalism throughout the manufacturing process. We are able to provide you with the services you need to get your project from start to finish.

- Resource Aquisition
- Warehousing
- Packaging
- Labeling
- Shipping
