Are you tired of high-cost heating with electricity or oil? Introducing the innovative DSAG65 Anthra-Glo stove! This stove was designed to install on the first floor or basement of your home.

You control the amount of heat thanks to DS Thermo Smart-Fire Technology that uses thermocouples to control the burn rate. The Anthra-Glo can be manually set with controls on the stove or paired with a wall mounted smart thermostat to maintain the perfect temperature!

The optional automatic battery backup ensures peace of mind in the event of a power outage with up to 35 hours of run time. When power is restored the battery will recharge automatically for easy and seamless operation.
