Since 1980, DS, a family owned business in Lancaster Pennsylvania has made sincere efforts to have the most competitive and the highest quality product available and it shows in the product they manufacture.

Traditional craftsmanship defines each product from wood and coal furnaces to custom metal fabrication. With a goal of high efficiency and low maintenance, along with superior quality, DS products are built to last a lifetime.

With four divisions, Stove Manufacturing, Retail, Wholesale, and Custom/Production Fabrication, DS strives for excellence in everything they produce.

# Things to Consider When Purchasing
- #DSGB-150 Gas Boiler
- GB150-LPB LP Burner Assembly
- GB150-NGB NG Burner Assembly
- 6-350 Draft Hood
- B-Vent Chimney

**Boiler Controls:**
- Expansion Tank
- Circulator Pump
- Zone Valves
- Mixing Valve
- Air Vents
- Feed Water Regulator
- CO and Smoke Alarm

Gas Boiler
Model #DSGB-150

Designed for Gravity-flo or Pump hot water heat systems

Where Tradition, Craftsmanship and Quality Come First
LP or NG Hot Water Boiler

After a lot of requests from DS dealers, early 2017 DS started research and development of the Gas Boiler. After multiple test batches, the boiler was finally safety and efficiency tested in May of 2019. This boiler was designed for “gravity-flo or pump” hot water systems and was designed to be “installer” friendly. The heat exchange tubes and stainless steel baffle make this unit as efficient as possible for a non-condensing gas unit.

FEATURES:
- Burns LP or NG
- Robertshaw Valve / Standing Pilot
- Stainless burner tubes
- 304 Stainless steel baffle with heat exchanger tubes
- 5,000+ sq. inches of heat exchange
- Non-electric
- Easy access panel to access controls
- Insulated sheet metal jacket
- Made in the USA
