Quality & Low Maintenance

Where Tradition, Craftsmanship, and Quality Come First

Economical Efficient Heating

The Ecomiser was designed to be economical. This U.L. Tested anthracite burning furnace is controlled with a DS Hot Air Draft Regulator, combining with a reburn system for maximum efficiency using less fuel. The Ecomiser offers a domestic water option and a single-speed blower. It can heat a whole home, shop, or greenhouse for less money.

FEATURES

- Burns Anthracite
- Hot Air Furnace
- DS Hot Air Draft Regulator
- Preset Reburn System
- Airtight Cast Iron Doors
- Superior Cast Iron Shaker Grates
- Exterior Shaker Handle
- Large Ash Pan
- Minimal Dust
- 18" x 18" Filter Box w/ Left or Right Inlet
- Adjustable Snap Disc For Distribution Blower
- Domestic Hot Water Option
- Constructed From Heavy Plate Steel
- Manufactured In Lancaster County, PA

DS HOT AIR DRAFT REGULATOR

The DS Regulator is not electrical. It uses two different metals bonded together. The metals expand and contract based on temperature, directing the heat to where it is needed. Mounted directly on the hot surface of the stove, it governs the temperature by opening or closing the draft control. This draft control connects to a specially designed draft intake through which air can enter to increase or decrease the temperature of the fire. The DS Regulator is equipped with a 5-position mechanical control dial.
